ABOUT US

B E W L E Y H O M E S

Colin Brooks, founded Bewley Homes PLC in 1991. It is still a family-run firm, Andrew Brooks (Colin's son) is Managing Director.

Over the years we have worked hard to build an excellent reputation with local communities, councils and town planners by producing architecturally attractive projects that blend with their local surroundings and respect their former historic use. Many of our sites are in sensitive planning Conservation Areas and therefore quality of design and engagement with local communities is paramount to the success of the planning application. We have been successful in winning numerous National and Civic awards for our quality of design and detailing.

On many occasions where families have lived for generations in their local community they feel a responsibility to develop their land in a sensitive manner, ensuring quality designs which blend with their surroundings. They feel strongly about leaving a legacy for the future and they choose Bewley Homes because of our sensitive designs, quality of construction and the fact we go above and beyond to ensure a complete understanding of the site's history.

The company also supports a variety of charities through corporate events and fundraising activities including Guide Dogs for the Blind, Sebastian's Action Trust and the Arrhythmia Alliance.
